THE NEW ZEALAND

JOURNAL OF AGRICULTURE.

VOLUME XIX.

(July – December, 1919.)

GENERAL INDEX.

A.

Abortion of cattle, recent observations on contagious, 337.
Agricultural and pastoral statistics, 1918–19 (interim returns), 126.
Agricultural shows, forthcoming, 200, 258, 336.
Annual sheep returns, 1919, 326.
Answers to inquiries, 62, 118, 189, 259, 317, 392.
Apiaries, the Department's, 27.
Apiary, the (monthly notes), 52, 113, 184, 253, 313, 384.
Apple-rots, 294.
Ashburton Experimental Farm, lucerne-culture tests at, 288.
Ashburton Experimental Farm, potato variety test at, 40, 106.
Asparagus-culture, 55.
Australia, importation of potatoes into, 324.

B.

Bark-affection of fruit-trees, 63.
Beef, yellow fat in, 320.
Blackleaf 40 and lime-sulphur for tomatoes, 260.
Black-wattle, establishing on fern-land, 317.
Blood-streaks in eggs, 393.
Boils on horse, 190.
Book-keeping, farm, 374.
Borage as a stock-fodder, 62.
Bordeaux, lime-sulphur spray following: Question of burning tested in black-spot control, 371.
Bot-flies, remedy for, in horses, 96.
Brown-rot of stone-fruits, control of, 24.
Burgundy mixture, 319.
Burkeyje Sylvia Posch, the milk and butterfat champion, 229.
Butterfat and milk records, New Zealand, 176.
Butterfat, efficiency in producing, 74.

C.

Cabbage-trees, clearing land of, 259.
Calculi from animals, 96.
Calf-feeding trouble, 190.
Calf-rearing, casein whey and, 317.
Calf with white scour, 394.
Calving heifer, dropsical condition in, 259.
Calving, observations on, 65.
Calving of young heifer, 191.
Canterbury experience in lucerne-growing, 86.
Casein and butter industry, 283.
Casein industry: Manufacturing processes and methods, 347.
Casein whey and calf-rearing, 317.
Cattle, recent observations on contagious abortion in, 337.
Cattle-tick regulations, 263.
Caution as to worthless manures, 194.
Certificate-of-record lists, 20, 300, 358.
Certificates in pruning and spraying, 322.
Champion milk and butterfat cow, Burkeyje Sylvia Posch, 229.
Cheese, cool storage of, 306.
Citrus trees, importation of, 193.
Compatibility of spray mixtures, 244.
Contagious abortion of cattle, recent observations on, 337.
Control of brown-rot of stone-fruits, 24.

Convolvulus, eradication of, 319.
Correspondence: Nitrogenous fertilizers, 60, 192.
Costing, farm, 148.
Couch-grass, control of, at Stratford Model Dairy Farm, 241.
Cover-crop experiments on the Moutere Hills, orchard, 364.
Cow, diseases of the udder of the, 139, 221, 265.
Cow, lack of milk-secretion in, 319.
Cow with cut teat, 63.
Cow with festered eye, 261.
Cows, testing of purebred dairy, 200, 300, 358.
Cream tests, 392.
Crops for pig-raising, 64.
Curing of sheep or lamb skins, home, 188.

D.

Dairy-farm stock, management of, 65, 139, 221, 265.
Dehorning dairy cattle, 118.
Denmark, the seed trade and seed-testing in, 336, 394.
Destruction of rabbits, hints on, 277.
Directions for making tarpaulins, 16.
Diseases of the udder of the cow, 139, 221, 265.
Dog, running sore on, 393.
Dog with St. Vitus's dance, 119.
Dogs, tapeworms affecting, 62.
Drainage of milking-shed, 261.
Dropsical condition in calving heifer, 259.
Dry-rot in swedes, investigation of, 223.
Ducks for the farmer, 251.

E.

Economic bearing of hymenopterous insects, the, 201.
Economic investigation of the montane tussock-grassland of New Zealand, an, 129, 343.
Egg-market and increase in production, the, 50.
Eggs, blood-streaks in, 393.
Ensilage in Hawke's Bay, 231.
Ergotized grass and ensilage, 392.

F.

Farm costing, 148.
Farmers' farm-school at Ruakura, 176.
Feed, provision of early spring, 283.
Fertilizers Act, registrations under, 41, 123, 195, 329, 397.
Fertilizers, nitrogenous, 60, 192.
Field-peas, 145.
Fig-tree, flowers and fruit of, 320.
Fires on wool-ships, seedy wool and, 296.
Forage crops for cows, 320.
Forest-tree planting in Nelson District, 297.
Forestry plantations, State, 316.
Forestry, private, in Marlborough District, 152.
Fruit-industry points from America, 264.
Fruit-trees, bark affection of, 63.
Fruit-trees, orchard-establishment and the formation of young, 1.
Fruit-trees, root-knot of, 194.
Frozen meat, importation of into Norway, 396.

G.

Garden, the (monthly notes), 55, 116, 186, 256, 314, 388.
Gisborne district, wheat-growing in the, 70.
Goats and tutu, 299.
Goats, milking, development of, 323.
Goat's rue, toxicity test with, 117.
Grass-grub, control of, 190.
Grass-grub, land infested with, 63.
Grassing light stony land, 118.
Grease, horse with, 262.
Green-manuring for Waihi Plains, 191.
Grimm lucerne, 172.

H.

Hæmatite paint for the farm, 23.
Hawthorn hedge, establishing, 393.
Hazelnuts, growth of, 261.
Horse bot-flies, remedy for, 96.
Horse with grease, &c., 262.
Hymenopterous insects, economic bearing of, 201.

I.

Importation of citrus trees, 193.
Importation of stud stock, 75.
Insects, economic bearing of hymenopterous, 201.

J.

Japanese millet for cow-grazing, 246.
Jersey champion: Sultan's Daisy, 281.

L.

Lambing, the season's, 336, 391.
Land-tax returns, 30.
Lantana shrub, 399.
Lawns, seed mixtures for, 119.
Lime and manures, mixing of, 262.
Lime from sea-shells, 294.
Lime-requirement of soils, 280.
Lime, top-dressing limestone country with, 318.
Limestone, soft, 39.
Limestones, analyses of, 105.
Lime-sulphur and Blackleaf 40 for tomatoes, 260.

Lime-sulphur spray following bordeaux: Question of burning tested in black-spot control, 371.
Live-stock in New Zealand, 400.
Louse infesting the legs of sheep, 15.
Lucerne as a soil-improver, 208.
Lucerne-culture tests at Ashburton Experimental Farm, 288.
Lucerne, Grimm, 172.
Lucerne-growing for seed-production, 369.
Lucerne-growing: Some Canterbury experience, 86.

M.

Macrocarpa-cypress seed, sowing, 119.
Maize notes, 242.
Management of dairy-farm stock, 65, 139, 221, 265.
Mangold-seed, steeping, 138.
Manure, seaweed as, 191.
Manures and lime, mixing of, 262.
Manures, caution as to worthless, 194.
Manuring transplanted hedge-plants and pines, 260.
Marlborough and Nelson soils, some typical, 209.
Marlborough District, private forestry in, 152.
Marram-grass, planting, 189.
Marton Experimental Area, 17.
Meat, frozen, importation of, into Norway, 396.
Methods of plant-breeding, 354.
Milk and butterfat records, New Zealand, 176.
Milk-secretion, lack of, in cow, 319.
Milking-machines, care of, 379.
Milking-shed drainage, 261.
Milking Shorthorn Association: Registration of brand, 193.
Millet for cow-grazing, Japanese, 246.
Montane tussock-grassland of New Zealand, an economic investigation of the, 29, 129, 343.
Mossbanks, treatment of, 317.
Moumahaki Ayrshires, 368.
Moutere Hills, orchard cover-crop experiments on the, 364.

N.

Nauru and other phosphate islands in the Pacific, 395.
Nelson and Marlborough soils, some typical, 76, 209.
Nelson District, forest-tree-planting in the, 297.
"New Zealand Plants and their Story": Review, 321.
Nitrogenous fertilizers, 60, 192.
Norway, importation of frozen meat into, 396.
Noxious weeds: Some simple aids to their control, 366.
Nursery stock, control of red mite and woolly aphis in, 94.

O.

Oats and wheat, areas under, 325.
Orchard cover-crop experiments on the Moutere Hills, 364.
Orchard-establishment and the formation of young fruit-trees, 1.
Orchard, the (monthly notes), 46, 107, 178, 247, 307, 380.
Orchards, registration of, 193.

P.

Palatability for sheep of certain New Zealand forest plants, 293.
Paint for the farm, hæmatite, 23.
Pasture plants for partly drained swamp, 319.
Pasture top-dressing test in Waipukurau County, 295.
Pea-breeding notes, 171.
Peanut and its culture, the, 173.
Peas, field, 145.
Pennyroyal, control of, 189.
Phormium tenax, yellow-leaf disease in, 89.
Phosphate islands in the Pacific, Nauru and other, 395.
Phosphorus poisoning in dogs and cattle, 259.
Pig-raising, crops for, 64.
Pigs, winter feeding of, 105.
Pigs, wood-chewing, 64.
Pines and hedge-plants, manuring transplanted, 260.
Pine-tree leaf disease, 189.
Plantations, State forestry, 316.
Plant-breeding, methods of, 354.
Poisoning in dogs and cattle, phosphorus, 259.
Potato variety test at Ashburton Experimental Farm, 40, 106.
Potatoes, importation of, into Australia, 324.
Potatoes, spray for, 394.
Poultry-keeping (monthly notes), 49, 111, 182, 250, 310, 383.
Pruning and spraying, certificates in, 322.

R.

Rabbit Boards' rating, 39.
Rabbit-destruction, hints on, 277.
Rabbit districts and regulations, 324.
Red mite and woolly aphis in nursery stock, control of, 94.
Red-top grass, 392.
Registration of orchards, 193.
Registrations under the Fertilizers Act, 41, 123, 195, 329, 397.
Review: "New Zealand Plants and their Story," 321.
Rhubarb-culture, 390.
River protective work, 271.
Root-knot of fruit-trees, 194.
Roses, pruning of, 58.
Ruakura Apiary, 28.

Ruakura, farmers' farm-school at, 176.
Rural competitions in Taranaki, 147.

S.

Sainfoin as forage, 64.
Sainfoin, growing of, 260.
Sale of pedigree dairy cattle, Weraroa, 228.
Sand-crack in horse's hoof, 318.
Scour, calf with white, 394.
Sea-shells, lime from, 294.
Seaweed as manure, 191.
Seed mixtures for lawns, 119.
Seed-production, lucerne-growing for, 369.
Seed, swede variety types and their perpetuation by pure, 284.
Seed trade and seed-testing in Denmark, the, 336, 394.
Seedy wool and fires on wool-ships, 296.
Sheep, louse infesting the legs of, 15.
Sheep, palatability of certain New Zealand forest plants for, 293.
Sheep returns, annual, 175, 326.
Shows, forthcoming agricultural, 200, 258, 336.
Shorthorn Association, Milking, registration of brand for, 193.
Skins, home curing of sheep and lamb, 188.
Soil for garden crops, 316.
Soil-improver, lucerne as a, 208.
Soils, lime-requirement of, 280.
Soils, some typical Nelson and Marlborough, 76, 209.
Sore on dog, running, 393.
Specimens, botanical and zoological, 294.
Spray for potatoes, 394.
Spray, lime-sulphur following bordeaux: Question of burning tested in black-spot control, 371.
Spray mixtures, compatibility of, 244.
Spraying and pruning, certificates in, 322.
Spurrey (weeds and their identification), 232.
Statistics, agricultural and pastoral, 126, 400.
Statistics, wheat crop: Official system explained and defended, 120.
Steeping mangold-seed, 138.
Stony land, grassing of light, 118.
Storage of cheese, cool, 306.
Stratford Model Dairy Farm: Second year's operations, 235.
St. Vitus's dance, dog with, 119.
Stud stock, importation of, 75.
Sulphuric-acid and superphosphate supplies, 325.
Sultan's Daisy: The Jersey champion, 281.
Swedes, investigation of dry-rot in, 223.
Swede variety types and their perpetuation by pure seed, 284.

T.

Tapeworms affecting dogs, 62.
Taranaki, rural competitions in, 147.
Tarpaulins, directions for making, 16.
Tauranga queen-rearing apiary, 27.
Timbers, exotic, 346.
Top-dressing limestone country with lime, 318.
Top-dressing of pasture: Test in Waipukurau County, 295.
Top-dressing pasture at Stratford Model Dairy Farm, 240.
Trade information by Royal Colonial Institute, 59.
Tussock-grassland of New Zealand, an economic investigation of the montane, 29, 129, 343.
Tutu, goats and, 299.

U.

Udder of the cow, diseases of the, 139, 221, 265.

V.

Viticulture (monthly notes), 53, 115, 185, 255, 386.

W.

Waimate West Demonstration Area, 378.
Waipukurau County, pasture top-dressing test in, 295.
Weather forecasting in New Zealand, 33, 97.
Weeds and their identification: Spurrey, 232.
Weeds, noxious, 366.
Weraroa sale of pedigree dairy cattle, 228.
Wheat and oats, areas under, 325.
Wheat, price of, 193.
Wheat-crop statistics: The official system explained and defended, 120.
Wheat-growing in the Gisborne district, 70.
Wheatmeal and ground wheat, importation of, 64.
Whitewash for dairy premises, 62.
Winemaking, Acts and regulations affecting, 264.
Wood-ashes, analysis of, 93.
Wood-chewing pigs, 64.
Woolly aphis and red mite in nursery stock, control of, 94.
Wool-ships, seedy wool and fires on, 296.
Work for the coming month, 46, 107, 178, 247, 307, 380.

Y.

Yarrow, eradicating, 394.
Yellow-leaf disease in *Phormium tenax*, 89.

ILLUSTRATIONS.

Page

Orchard-establishment and the formation of young fruit-trees—
- Grader for levelling in drain-construction 3
- Drain dug with draining-spade; drain with pipes at lower side; drain with pipes in centre groove 4
- Root-pruning 6
- Marking out a rectangular or square plot: Showing how to get a true right angle.. 7
- Marking out a plot of irregular shape 8
- Planting-board 9
- Three-year-old apple Jonathan, unpruned and pruned 11
- Three-year-old apple Sturmer, unpruned and pruned 13

Testing of purebred dairy cows—
- Tui de Kol 21
- Golden Swan's Girl 21

Land-tax returns: Facsimiles of filled-in forms 32

Weather forecasting in New Zealand—
- Weather-chart, 17th October, 1911: Intense and extensive westerly area of low pressure.. 34
- Weather-chart, 5th November, 1915: Westerly low-pressure area with double centre 34
- Isobaric chart, 5th June, 1913: Typical anticyclones and ∧-shaped depressions 35
- Weather chart, 11th June, 1914: Cyclone, showing centre in south .. 36
- Weather chart, 13th August, 1913: Cyclone with two centres .. 36
- Cyclone-paths 38

Wheat-growing in the Gisborne district—
- Part of the wheat-fields at "The Willows," showing John Brown variety in stook 71
- The crop of Currawa wheat 72

Lucerne-growing: Some Canterbury experience—
- Harvesting lucerne at "Dalsraith" 87
- The lucerne stand at Woolston 87

Weather forecasting in New Zealand—
- Weather-chart, 29th October, 1915: Secondary "low" and its apparent path 97
- Weather-chart, 16th December, 1913: Cyclone centred west of Farewell Spit 98
- Weather-chart, 17th December, 1913: Cyclone centred east-south-east of New Zealand 98
- Barographic curve during passage of cyclone, Wellington, 16th–17th December, 1913 99
- Weather-chart, 21st July, 1911: Extra-tropical cyclone centred north-north-east of Cape Maria van Diemen 100
- Weather-chart, 18th May, 1914: Cyclone to north-east and anticyclone in south 100
- Weather-chart, 19th May, 1914: Cyclone approaching East Cape; anti-cyclone departing in south-east; westerly "low" approaching 101
- Weather-chart, 20th May, 1914: Cyclone centred off East Cape; westerly "low" in south 101
- Weather-chart, 21st May, 1914: Combination of cyclone and westerly "low" 103
- Weather-chart, 22nd May, 1914: "Low" departing eastward; high pressure approaching from west 103
- Isobaric chart, 18th May, 1914, showing distribution of pressure over an extensive area 104
- Cyclone-tracks 104

Young Friesians at Weraroa 106

An economic investigation of the montane tussock-grassland of New Zealand—
- An early stage of depletion 131
- A further stage of depletion 131

An economic investigation of the montane tussock-grassland of New Zealand—*continued.* Page

Tussocks in process of destruction by rabbits 133
Final stage of depletion on a small area in Marlborough with the advent of the scabweed 133
Depleted area on the Dunstan Mountains, Central Otago, with poa-tussock fringing a water-race 134
Young growth of burnt poa-tussock eaten by rabbits 134
Depletion as affected by slight differences in aspect 135
Ground on the Dunstan Mountains occupied by the scabweed .. 135
Scabweed in process of being denuded by wind-action 136
Final desert stage of depletion (Central Otago) 136
Management of dairy-farm stock : Diseases of the udder of the cow—
Section of one half of the udder of the cow 140
Diagrammatic section of highly magnified gland-tissue 141
Private forestry : The Marlborough District—
" Bankhouse " (H. Y. Monro) 153
The old " Hillersden " homestead, now occupied by Mr. J. O. Anstiss.. 153
Far-reaching view of the " Hillersden " plantations 155
An ideal site for a home 155
Eucalyptus globulus, " Brookby " (A. J. Dowling) 157
Eucalyptus eugenioides, " Hillersden " (J. O. Anstiss) 157
Eucalyptus eugenioides, " Hillersden " (J. O. Anstiss) 159
Pinus insignis, " Hillersden " (J. Parfitt) 159
Pseudo-tsuga Douglasii (syn. P. taxifolia), girth 6 ft., " Hillersden " (J. Parfitt).. 161
Pseudo-tsuga Douglasii (syn. P. taxifolia), girth 8 ft. 9 in., " Hillersden " (J. O. Anstiss) 161
Double-stemmed *Sequoia sempervirens* at Catholic Church, Blenheim.. 163
Sequoia gigantea in grounds of Mrs. T. Redwood, Blenheim 163
Eucalyptus obliqua, " Hillersden " (J. Parfitt) 166
Vigorous saplings of *Eucalyptus regnans*, " Timara " (R. F. Goulter) .. 167
Remarkable specimens of *Populus nigra* at " The Laurels," Blenheim.. 169
Very large willow-trees at " The Laurels," Blenheim 169
Farmers' farm-school at Ruakura, July, 1919 (group) 177
The economic bearing of hymenopterous insects—
Paniscus productus—female 204
White-marked *Mesostenus*—female 204
Lissopimpla semipunctata—female 204
Wingless parasite of white-pine borer 204
Parasite wasp attacking cabbage-aphis 204
Abdomen of *Rhyssus fractinervis* 204
Head of humble-bee—side view, showing elongated mouth-parts .. 207
Pear and cherry slug or leech 207
Adult of pear and cherry slug 207
Steel-blue saw-fly (*Sirex juvencus*)—female, about natural size .. 207
Abdomen of steel-blue saw-fly—side view, showing ovipositor at rest .. 207
The milk and butterfat champion : Burkeyje Sylvia Posch 230
Weeds and their identification : Spurrey (*Spergula arvensis*) 233
Stratford Model Dairy Farm : Mangold crop, season 1918–19 237
Maize notes : Cobs of Queen of the Prairie selection 243
River protective work—
Makaretu River at Takapau Bridge 272
Diagram showing placing of groynes 274
Plan diagram of outer end of groyne, showing fan and small lateral .. 275
The Jersey champion : Sultan's Daisy 282
Lucerne-culture tests at Ashburton Experimental Farm : Plants showing effects on growth of liming and manuring 291
Certificate-of-record cows : Waihi Lass 302
Circular concrete trough at Porirua Mental Hospital farm 328
An economic investigation of the montane tussock-grassland of New Zealand—
Dense growth of Californian thistle on Dunstan Range, at altitude of 1,900 ft. 345
Closer view of previous figure 345
Matangi dried-milk factory, Waikato 363
Orchard cover-crop experiments on the Moutere Hills (Bronte, 1919)—
Blue lupin 365
Ruakura oats 365
